

Exploratory Test Report: [BuddyTutor](https://buddytutor.buyoniasoft.com/) Website

Start: 13/3/2023 2:10 PM (Start Date & Time)

Tester: AK NIBIR.

URL: <https://buddytutor.buyoniasoft.com/>

Module: Landing-Page.

OS: Windows 10.

Browser: Mozilla Firefox.

Test Criteria 1

Sub-Module: Header Section.

Description

The Header section of the **Buddy-Tutor** application has split into **2 Parts**.

On the **Left** side of the **Upper-Header** Section, there is a **Business-Email** for this platform. On the other hand, the **Right** side has 2 functional units of this platform and they are the **Login** module URL and the **Register** module URL.

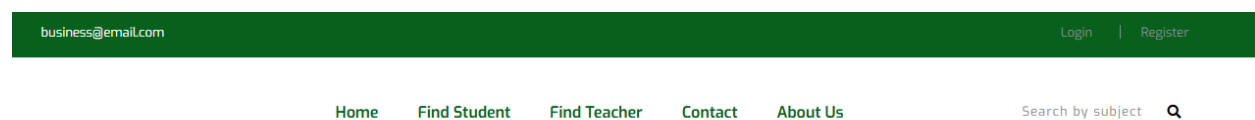

The **Lower-Header** Section works as a **Navigation-Panel** of this application. Through here, we can navigate other modules of this application such as: **Find Student**, **Find Teacher**, **Contact**, and **About Us**. There is also an implemented **Search-field** to search Teachers by their Subjects.

Your Software Our Passion For Perfection

Test Analytics

All the **Functional-Criteria** of this sub-module is functioning perfectly.

Screenshot

Test Criteria 2

Sub-Module: Image Carousel Section.

Description

Below the Header section, this **Image-Carousel** section belongs. This image carousel section contains different images with text. There is also some functionality in this sub-module.

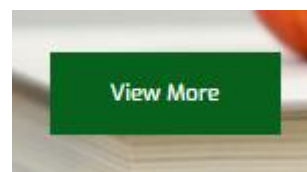

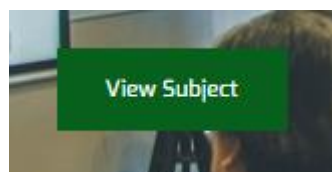

On the Left Side of this application has two **Navigation-Buttons** to navigate the carousel content.

While navigating the content there are also two **Buttons** visible through the changing of the carousel content. The buttons are **View Subject** and **View More**.

Test Analytics

The navigation functionalities are working perfectly. But there are issues with **View Subject** and **View More** buttons, when clicking on them it redirects again to the landing page.

Screenshot

Test Criteria 3

Sub-Module: Find Tutor Section.

Description

Below the Image-Carousel section, the **Find-Tutor** section belongs.

Here we can find Tutors through **Online** and **Offline** Criteria and those are split into two **Selector-Elements**.

By searching **Tutor Online**, need 2 parameters **Subject** and **Level**. The subject field is a **Text-input** field whereas the Level field is a **Dropdown** field.

By searching Tutor offline, need 3 parameters **Subject**, **Level**, and **Postcode**. The subject and Postcode fields are Text input fields whereas the Level field is a **Dropdown** field.

Test Analytics

Due to having **Limited-data** to test the functionality, **In-depth Testing** is not performed at this moment. But found working fine with limited data.

Screenshot

The image displays two screenshots of a web application interface titled "Find the right tutor for you".

The top screenshot shows the "Online" tab selected. It features a red bar with "Online" and a green bar with "Offline". Below the tabs, there is a text input field labeled "Enter a Subject", a dropdown menu labeled "All Level", and a green "Search" button.

The bottom screenshot shows the "Offline" tab selected. It features a green bar with "Online" and a red bar with "Offline". Below the tabs, there are three input fields: a text input field labeled "Enter a Subject", a dropdown menu labeled "All Level", and a text input field labeled "Postcode". A green "Search" button is also present.

Test Criteria 4

Sub-Module: Subject Section.

Description

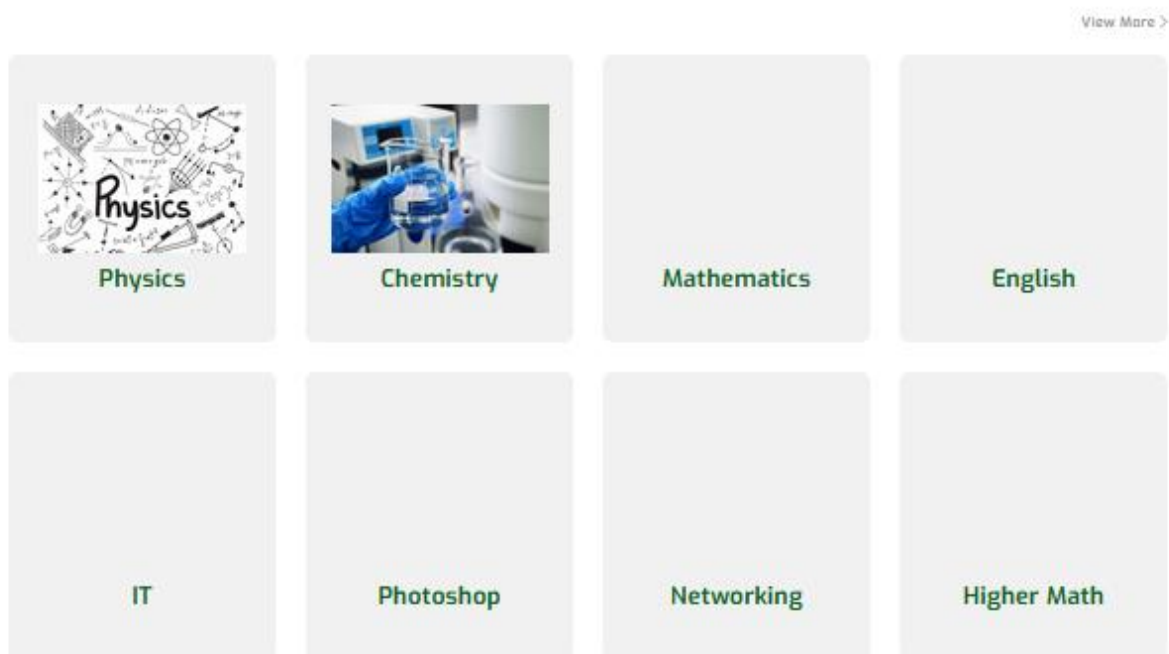

In the **Subject Section**, there are different subject blocks of content. There is also a **View More** option to view Subjects.

Test Analytics

Subject contents are not properly added, and still have **Dummy-Content** and **Improper-Redirection**. The **View More** option is working fine.

Screenshot

Subjects

Test Criteria 5

Sub-Module: Student Review Section.

Description

The **Student Review** section contains reviews of the student for this platform. This section contains the platform **Vendor's-opinions**, and students some basic info with their **Review**.

The functioning options here are the view **Next** and **Register Now** buttons.

Test Analytics

All the **Functional-Criteria** of this sub-module is functioning perfectly.

Screenshot

Test Criteria 6

Sub-Module: Footer Section.

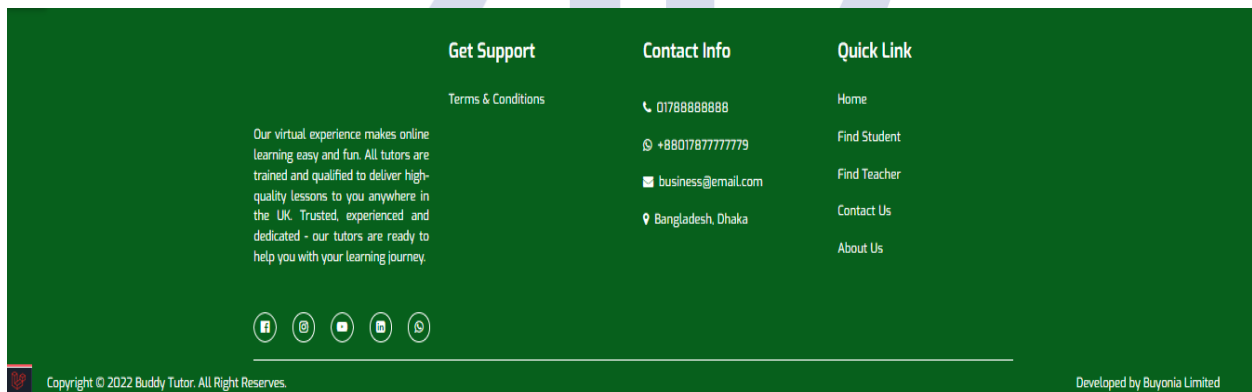

Description

In the **Footer Section**, there are footer contents of **Service information**, **Support information**, **Contact Information**, **Quick Links**, **Social Connections**, and at the bottom **Copyright Information** of the Platform's Vendor.

Test Analytics

Footer contents are not properly added, and still have **Dummy-Content** and **Improper-Redirection**. The contact info cell has contents that are **Hoverable Content** and their functionality is still **Inappropriate**. **Social icons** are also **Hoverable Content** and have **Improper URL Redirections**.

Screenshot

Test Criteria 7

Sub-Module: Floating Panel Section.

Description

On the left side of the website, there is a **Floating-panel** for Social-Media connections with icons. This panel contains **Facebook, Instagram, Youtube, LinkedIn,** and **Whatsapp** logos in a single cell as well as they are **Hoverable Content**.

Test Analytics

This floating panel is **Transparent** and **Static** on this website. For being transparent it has created issues when scrolling the webpage. When scrolling down another block of the page the **Background-color** of this panel are changing and if the **White-color** behind the background, the logos of this panel become **Invisible**. As well as **URL Redirections** of these logos are **Inappropriate**.
